## About Mecitoglu Homes

Building your dreams under the sun...

Mecitoglu Homes, is a dedicated house building company with 15 years' experience.

We have an unparalleled record in our industry and draw on our experience as a provider of quality homes but update that to the expectations of today's buyers and strive to provide the best quality homes.

Our ongoing projects and 26 completed developments in the region give our business significant size and scale and truly regional geographic coverage.

We build a range of homes from one bedroom apartments to large family homes for every taste and budget and as a result, our property portfolio displays a surprising diversity. Our new developments can be found throughout the region, from Colakli in the West, right up to Side in the East.

We offer a reputation for market leading initiatives in areas such as professional after sales and rental management services. Our philosophy has always been to design stylish Mediterranean Homes built to exacting standards with quality features appreciated by discerning purchasers. The location and setting are of equal importance. We take great care to select desirable locations and we design our properties sympathetically to harmonize with the site and its surroundings.

We firmly believe that purchasers want to buy a home that is special. They need to feel their investment is safe and they need to know that they are benefiting from the latest that house builders can provide.

Despite being one of the largest and respected property developers in the area, Mecitoglu Homes is still a family-owned and financed company which remains true to its founding principles of providing carefully designed and constructed homes at the most competitive prices.
